

MARKET LEADERS IN ANAEROBICS, CYANOACRYLATES, EPOXIES AND ULTRA-VIOLET TECHNOLOGIES

VC3 THREADMATE

VC-3 Threadmate is an alternative to traditional liquid lockers which cure to form a hard bond, VC-3 is a proprietary blend of thermoplastic elastomer resins designed to remain flexible and absorb vibration.

VC-3 damps the vibrational energy transferred between the threads of a mated fastener, preventing fastener loosening and loss of clamp load. These unique differences make VC-3 coated fasteners truly adjustable, removable, and reusable.

Sizes:

5 mL \$5.25
#21305
30 mL \$26.95
#21330
250 mL \$103.98
#21325
1 Qt \$292.99
#21332

111 LOW STRENGTH THREADLOCKER

A low strength anaerobic threadlocker designed for locking threaded fasteners smaller than 1/4" in diameter, which require disassembly with standard hand tools. Also works on set screws, and screws that have a long engagement length.

Sizes:

#11110 10 mL \$8.20
#11150 50 mL \$19.99
#11125 250 mL \$64.98
#11100 1 L \$143.00

121 MEDIUM STRENGTH THREADLOCKER

A medium strength anaerobic threadlocker designed for locking threaded fasteners from 1/4" to 3/4" in diameter. Medium strength allows for disassembly with standard hand tools. Exhibits good temperature and solvent resistance. Used in applications where shock and vibration may cause the fasteners to loosen.

Sizes:

#12110 10 mL \$8.20
#12150 50 mL \$19.99
#12125 250 mL \$64.98
#12100 1 L \$143.00

131 HIGH STRENGTH THREADLOCKER

A high strength anaerobic threadlocker designed to permanently lock fasteners up to 1" in diameter. Exhibits good temperature and solvent resistance.

Sizes:

#13110 10 mL \$8.20
#13150 50 mL \$19.99
#13125 250 mL \$64.98
#13100 1 L \$143.00

530 GENERAL PURPOSE RETAINING COMPOUND

The product performs on aluminum, steel, plated, stainless steel, and special alloy parts. Can be used where lubricity is needed to press fit parts or to create an air-tight seal on cylindrical assemblies. This product cures rapidly on all metal surfaces. Replaces press fit assemblies and keyways. Used on gearbox bolts / drive shaft, bearing applications.

Sizes:

#53010	10 mL	\$8.99
#53050	50 mL	\$23.98
#53025	250 mL	\$69.89
#53000	1 L	\$163.15

420 CONTROLLED STRENGTH THREAD SEALANT

An anaerobic thread sealing and thread locking compound with PTFE for pipe fittings. It is designed for sealing threaded fasteners that require disassembly with standard hand tools. It exhibits good temperature and solvent resistant.

Sizes:

#42050	50 mL	\$14.99
#42025	250 mL	\$48.10
#42000	1 L	\$149.98

908 FOOD GRADE ANTI-SEIZE

Food Grade Anti-Seize is specifically developed for use in applications where incidental food contact is possible. Protects metal parts from seizure, galling, rust, corrosion and heat freeze by adhering to the metal surface. Meets NSF (H1)

Sizes:

#90816	16 oz	\$38.25
#90800	1 Gal	\$178.99
