## TYPE 27 GRINDING WHEELS

Designed for heavy-duty applications, offering high performance for metal grinding and cutting tasks. Type 27 wheels feature a depressed center design, allowing for better angles and improved control during grinding or cutting operations.

### 4-1/2" x 1/4" x 7/8" A24R Long Life Grinding Wheel

- Abrasive Material: Aluminum Oxide
- Application Material: Carbon Steel, Stainless Steel
- Grit: 24
- Arbor: 7/8"
- 25/pk

**\$2.39/ea**

#20063

### 4-1/2" x 1/4" x 7/8" A24N Fast Grinding Wheel

- Abrasive Material: Aluminum Oxide
- Application Material: Carbon Steel, Stainless Steel
- Grit: 24
- Arbor: 7/8"
- 25/pk

**\$2.39/ea**

#20060

### 6" x 1/4" x 7/8" A24N Fast Grinding Wheel

- Abrasive Material: Aluminum Oxide
- Application Material: Carbon Steel, Stainless Steel
- Grit: 24
- Arbor: 7/8"
- 25/pk

**\$4.98/ea**

#20078

### 6" x 1/4" x 7/8" A24R Long Life Grinding Wheel

- Abrasive Material: Aluminum Oxide
- Application Material: Carbon Steel, Stainless Steel
- Grit: 24
- Arbor: 7/8"
- 25/pk

**\$4.98/ea**

#20079

# TYPE 1 CUT-OFF WHEELS

Designed for precise and efficient cutting applications, these wheels feature a flat, thin profile ideal for making straight, clean cuts. Type 1 cut-off wheels are versatile and compatible with portable chop saws, die grinders, and other cut-off tools, making them suitable for various industrial and professional applications.

## 4-1/2" x .045" x 7/8" A60S General Purpose Cut-Off Wheel

- Abrasive Material: Aluminum Oxide
- Application Material: Ferrous and/or Non-Ferrous Metals
- Grit: 60
- Arbor: 7/8"
- Type: 1 / 41
- 50/pk

**\$2.59/ea**

#23101

## 6" x .045" x 7/8" A60S General Purpose Cut-Off Wheel

- Abrasive Material: Aluminum Oxide
- Application Material: Ferrous and/or Non-Ferrous Metals
- Grit: 60
- Arbor: 7/8"
- Type: 1 / 41
- 50/pk

**\$3.03/ea**

#23106

# FLAP DISCS

Versatile, high-performance tools for grinding, blending, and finishing applications. These discs combine aggressive material removal with the ability to create a smooth surface finish, reducing the need for multiple tools.

## 4-1/2" x 7/8" Encore Flap Disc, Type 29

- Abrasive Material: Zirconia Alumina
- Application Material: Metal, Stainless Steel, Aluminum
- Grit: 36
- Arbor: 7/8"
- Fiberglass Backed
- 10/pk

**\$5.39/ea**

#79105

## 4-1/2" x 7/8" Encore Flap Disc, Type 27

- Abrasive Material: Zirconia Alumina
- Application Material: Metal, Stainless Steel, Aluminum
- Grit: 36
- Arbor: 7/8"
- Fiberglass Backed
- 10/pk

**\$5.39/ea**

#71205

## 4-1/2" x 7/8" Ovation Flap Disc, Type 27

- Abrasive Material: Zirconia Alumina
- Application Material: Metal, Stainless Steel
- Grit: 40
- Arbor: 7/8"
- Fiberglass Backed
- 10/pk

**\$8.79/ea**

#78006

## 4-1/2" x 7/8" Ovation Plus Flap Disc, Type 27

- Abrasive Material: Zirconia Alumina
- Application Material: Metal, Stainless Steel
- Grit: 40
- Arbor: 7/8"
- Fiberglass Backed
- 10/pk

**\$8.79/ea**

#72200

# FIBER DISCS

High-performance abrasives designed for heavy-duty grinding, blending, and finishing applications. These discs deliver excellent cutting power and long-lasting durability on a variety of materials, including steel, stainless steel, and aluminum.

## 7" x 7/8" Arbor 9.3 Power Max Ceramic Fiber Disc

- Abrasive Material: Ceramic with Grinding Aid
- Application Material: Stainless Steel, Steel, Non-ferrous, & Ferrous Metals
- Grit: 36
- Arbor: 7/8"
- 100/pk

**\$5.24/ea**

#58219

## 4-1/2 x 7/8 Fiber Disc, Z Series

- Abrasive Material: Zirconium
- Application Material: Stainless Steel, Steel, Non-ferrous, & Ferrous Metals
- Grit: 36
- Arbor: 7/8"
- 100/pk

**\$2.27/ea**

#59236

## 4-1/2" x 7/8 Arbor 9.3 Power Max Ceramic Fiber Disc

- Abrasive Material: Ceramic with Grinding Aid
- Application Material: Metal, Stainless Steel, Aluminum
- Grit: 36
- Arbor: 7/8"
- 100/pk

**\$3.06/ea**

#58207

## 4-1/2 x 7/8 Arbor A2 Fiber Disc

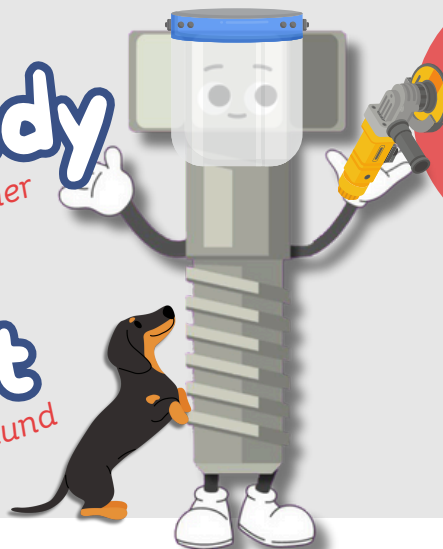

- Abrasive Material: Aluminum Oxide
- Application Material: Metal, Wood
- Grit: 36
- Arbor: 7/8"
- 100/pk

**\$1.36/ea**
