# VALUE ADDED SERVICES

We streamline your procurement process and eliminate operational bottlenecks so you can focus on your core business.

**Inventory Management Solutions (VMI):** Streamline your supply chain with our Vendor Managed Inventory and bin-stocking programs. We monitor your stock levels and handle replenishment to eliminate "line-down" situations and reduce your carrying costs.

**Kitting, Assembly & Special Packaging:** Increase production efficiency with custom kitting. We perform in-house assembly and specialized packaging tailored to your specific project requirements, ensuring all components arrive organized and ready for use.

**Custom & Modified Parts:** We provide comprehensive solutions for non-standard requirements. Our expertise includes custom manufacturing, secondary machining—such as drilling, cutting, and welding—specialized plating and coatings, and custom thread-locking patches.

**Sourcing & Supply Chain Solutions:** Leverage our global and domestic vendor network to find hard-to-source parts and specialty hardware. We handle the procurement and logistical burdens, acting as your single-source supplier.
